

Adhesive Hangers

PART LIST

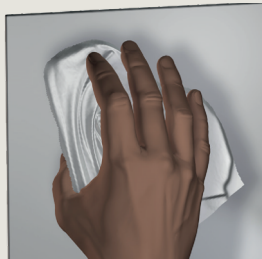

1x

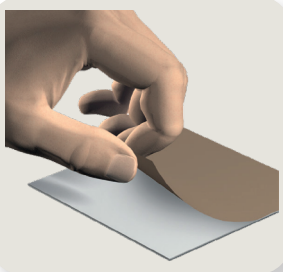

Warning

Choose the size of the Adhesive Hanger depending on the panel's weight. Depending on the size and weight of your panel, two Adhesive Hangers might be required.

Clean Surface

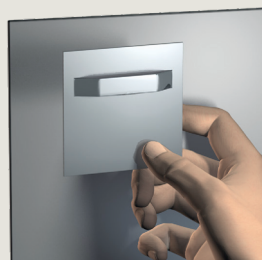

Remove Liner

1 Clean the Surface

- Make sure there is no oil or grease on the panel surface where the Adhesive Hanger will be attached. Rubbing alcohol can be used to remove any oil or grease from the panel. Allow the panel to dry after washing it.

Install

Put Weight

2 Install the Adhesive Hanger

- Remove the liner from the back of the Adhesive Hanger.
- Fastened the Adhesive Hanger to the freshly cleaned area of the panel's back.
- Put weight on the Adhesive Hanger and give it 72 hours to rest.
- It is now possible to hang the panel by the Adhesive Hanger. To prevent wall damage, use picture hanging systems (tracks-cables-hooks) in combination with Adhesive Hangers.
