NOTE
The Fixed Pier Set is rated for 150 lbs. when installed by fastening into structural wood with the appropriate fastener and the fastener is engaged 1" or more into lumber. However, the weight capacity of an individual pier/steel cable combination may be as low as 10 lbs., or less (static load), depending on the mounting hardware and installation technique. Actual capacity is dependent upon the installation. It is the responsibility of the installer to select the correct fastener for a particular installation.
