

**Display It LED Rail Cover Cap  
K5507**

**PARTS LIST**

Display It LED Rail Cover Cap  
1x

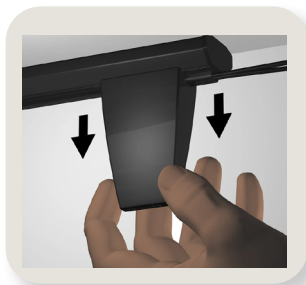

**Warning**

Use the Display It LED Rail Cover Cap works only with the Display It LED with Track.

**1 Rail Cover Cap Installation**

- Place the cables so they align at the center of the right channel at the top of the cover cap.
- Push the cover cap inside the track's channel until you hear a click sound.

**2 Removal of Rail Cover Cap**

- Pull on the cover cap gently but firmly until it detaches from the track.
- It can be easier to pull one side at a time.
